Statement on the Limit, Save, Grow Act

(Washington, D.C.) — The following statement regarding the Limit, Save, Grow Act may be attributed to James Edwards, Executive Director, Conservatives for Property Rights:

“The Limit, Save, Grow Act wisely imposes sound policies to balance raising the debt limit. Curbing federal spending levels. Rolling back some of the worst excesses of the mislabeled ‘Inflation Reduction Act.’ Stopping executive misspending of federal dollars. Protecting those Americans prudent with their own finances from being forced to bail out wealthy, woke college debtors. Reclaiming unspent COVID largesse long after the pandemic subsided into endemic status. Requiring those on the dole to work. Ensuring that our vast natural resources serve our nation’s energy independence. Each of these provisions serves private property rights in its own way. The productive citizens of the United States aren’t an ATM for spendthrift politicians. The Limit, Save, Grow Act is a great first step toward limiting government and putting it on a diet.”
